PRELIMINARY NOTES

Translation goals always effect the translation outcome. The goal of the English translation of the German Social Survey (ALLBUS) 2004 is to let interested researchers know what was asked in the survey. Our goal is not to procure a questionnaire that can be fielded in an English speaking community exactly as presented. Some of the translations, for example, are not especially idiomatic; reasons are given below. Our translations are not heavily annotated. Occasionally we provide additional information in square brackets [...]. If anyone wants to field ALLBUS items in English, we seriously recommend to take the points we made below into consideration and adjust the translations appropriately to his or her own survey context. If there are any questions where clarification is needed, we will be happy to help where we can. We would like to take the opportunity to thank our translators for their patience and their valuable professional contribution. Lisa Brüderlin did the translation into English, Birgitt Krumböck, a native English speaking translator, did the review and quality assessment of the translation.

Particular points of relevance

Translation of the German indefinite pronoun ,man' which in some respect is like the English indefinite pronoun ,one':

The German ,man' is not formal and used in more and different contexts from ,one' in English. English equivalents, depending on context, can be ,one', ,you', ,we' or ,people'.

Gender specific reference:

German and English differ quite a lot in the way the sex of people is referred to. Various differences have meant that we sometimes translated with ,he/she' when the German has indicated the sex differently.

Answer scales:

Translation of answer scales is a special case (Harkness 1998)¹. For some scales, we have attempted to provide translations that might actually work in an English field questionnaire.

¹ Harkness, Janet (1998), Response scales in translation: questions for equivalence. Paper presented at the 14th Congress of the International Association for Cross-Cultural Psychology, Bellingham, August 1998

ALLBUS 2004

For other scales, where the German scale itself was perhaps unusual, we simply tried to translate the essence.

Answer categories not read out (Don't know (DK), etc.):

The ALLBUS 2004 was conducted as a computer-assisted-personal-interview (CAPI) and the DK categories such as ,answer refusal', ,don't know' or ,no answer'were not read out to respondents.

Here are some opinions about the State and the economy in Germany. Please tell me for each opinion, whether you ...

Completely agree
Tend to agree
Tend to disagree
Completely disagree
Don't know

- A In our society, everybody must see for themselves that they succeed somehow. Joining others in order to fight for one's cause either politically or with a trade union does not provide much help.
 - B The economy only works if entrepreneurs make good profits. Everyone benefits from that in the end.
 - C The State has to make sure that everyone has a job and that prices remain stable, even if the freedom of entrepreneurs has to be curtailed because of this.
 - D The State must ensure that people can live a decent income even in illness, hardship, unemployment and old age.
 - E If social security benefits, such as the continuation of payments in case of illness, unemployment benefits, and early retirement pensions are as high as they are now, then this will only lead to the situation that people do not want to work any more.
 - F All in all, one can live very well in a country like Germany.
 - G By and large, economic profits are nowadays distributed fairly in Germany.
 - H Even if one wanted to, one could hardly make social inequalities any lower than they are here in Germany.
-

F052

Now think of your personal situation:
All things considered have your ideas of what you wanted to achieve in life been – so far –

INT.: Please read out the response categories.

Here is a card with various views on what social differences in Germany are really like and how things should be.

Please go through the statements one by one and tell me whether you

Completely agree
Tend to agree
Tend to disagree
Completely disagree
Don't know

- A In Germany, the old differences between those who own and those who work still persist. One's personal status depends on whether one belongs to the upper or the lower class.
 - B In Germany, there are still large differences between social classes. What one can achieve in life substantially depends on one's family background.
 - C Germany is an open society. What one achieves in life, does not depend on one's family background anymore, but on the abilities one has and the education one acquires.
 - D What one gets in life depends not so much on one's own efforts, but on the economic situation, the situation on the employment market, wage agreements, and the social benefits provided by the State.
 - E Income should not be based solely on individual achievement. Instead, everybody should have what they and their family need for a decent life.
 - F Only when differences in income and in social standing are large enough, is there an incentive for individual achievement.
 - G Differences in status between people are acceptable because they basically reflect what people have made of the opportunities they have had.
 - H On the whole, I consider the social differences in our country just.
-

F056

What about your personal pension provision or provision for incapacity or illness?
Do you feel you are -

INT.: Please read the categories aloud.

- Adequately provided for
 - Not adequately provided for
 - Or have you not thought about that yet?
-

F057

Some people say that we have more than enough social benefits in Germany today and that they should be cut back in the future.

Other people think that we should keep the current system of social provision and if necessary extend it. Have you formed an opinion on this issue?

- Yes
 - No
-

F058

What is your opinion?

Should social benefits be cut in the future, should things stay as they are, or should social benefits be extended?

- Should be cut
 - Should stay as they are
 - Should be extended

F059

INT.: Please present card 59.

People have different opinions about the role of women in the family and bringing up children. For each of the statements on the card, please tell me whether you completely agree, tend to agree, tend to disagree, or completely disagree.

- A A working mother can establish just as loving and secure a relationship with her children as a mother who doesn't work.
- B It's more important for a wife to help her husband with his career than to pursue her own career.
- C A small child is bound to suffer if his or her mother goes out to work.
- D It is much better for everyone concerned if the man goes out to work and the woman stays at home and looks after the house and children.
- E A child actually benefits if his or her mother has a job rather than just concentrating on the home.
- F A married woman should not work if there are not enough jobs to go round and her husband is also in a position to support the family.

F061

I'm going to read you some statements now. Please tell me after each one whether you have the same or a different opinion.

INT.: Please read the statements aloud.

- No matter what some people say, life for ordinary people is getting worse rather than better.
- With the future looking as it does, it's almost irresponsible to bring children into the world.
- Most politicians are not really interested at all in the problems of ordinary people.
- Most people don't really care in the slightest what happens to others.

On this card are four goals which can be pursued in politics.

- 64A If you had to choose between these different goals, which one would seem to you personally to be **the most important**?
- 64B And which goal would be **the second most important** to you?

You can use the numbers in between to differentiate your answer.

INT.: Please read the statements aloud!

- A Modern technology has more positive than negative effects.
 - B Due to technological progress, humanity is continuously moving towards a better future.
 - C I am interested in technology and technological issues.
 - D It is sometimes difficult for me to operate appliances, such as ticket-vending machines and cash dispensers.
 - E I take no interest in computers.
 - F It's important for me to have a state-of-the-art computer at my disposal at home.
 - G I feel I can't keep up with developments in the area of new electronic media, such as the Internet and mobile communications.
 - H In the future, people who do not have access to the Internet will be at a disadvantage in our society.
 - J The Internet fundamentally contributes to improving levels of knowledge and information in society.
 - K I think the Internet is fascinating.
-

F067

I will now ask you some more questions on your personal use of computers and the Internet.

And finally, a completely different question. We plan to continue our research project with a further survey. Your participation would be very valuable to us. This is why we would like to ask you whether you would be willing to take part in a potential future survey.

Your address will be stored separately from the questionnaire, solely for the purpose of a further interview. There is no way it can ever be linked to the answers you provide. Your data will remain absolutely confidential.

Once the research project has been completed, your address will be permanently deleted from our records. It goes without saying that your consent is voluntary.
